Art must be sized to bleed box to ensure artwork and final product are 100% correct. Any art close to the outline is in jeopardy of not being printed. Please outline any text in the design or text will appear blank. When creating the design please note which section you are designing on. Art placed across seam-lines will NOT match up. Art is to size: If a logo is placed we will assume the size of the logo is what is shown unless size specs are specified. Art may vary by size - our production team will alert you of any issues with sizing. Please let your sales rep know if there are any PMS colors that must be included in the design. If provided our production team will match final product to the best of our ability for your approval. If no PMS colors are provided we will match as close as possible. Any and all designs must be confirmed with the art team before moving into production.
